WEB DEVELOPMENT PROJECTS

CITYVENT | [CareerFoundry](#)

[Github](#)

Full-Stack Web Development Course Berlin, Oct-Nov 2023

- Built a Progressive Web App (PWA) using React integrating the Google Calendar API seamlessly into the application for users to filter events by city, operating seamlessly in offline mode.
- Implemented serverless functions using AWS Lambda to facilitate user authentication and authorisation through OAuth protocols.
- Engineered and tested the app's unit functions with Jest, complemented by integration tests based on user stories written in Gherkin. Implemented end-to-end testing utilising Puppeteer, resulting in a flawless web app with 100% test coverage.

CINEFLIX | [CareerFoundry](#)

[API](#) | [Github](#)

Full-Stack Web Development Course Berlin, Aug-Oct 2023

- Used REST architecture, Node.js and Express to create an API interacting with my database using Mongoose and MongoDB.
- Having tested the endpoints with Postman and generated thorough documentations using JSDoc, the API was deployed on Render.
- Designed the client-side with React hosted on Netlify for user to access a library of movies and save their favourite on a personal account.

WORK EXPERIENCE

Cultural Mediator | [Stadtmuseum Berlin](#) | Berlin, Germany

March 2021-March 2023

- Collected feedback from 400 visitors through discussions, reports and collaboration with 50 colleagues.
- Successfully managed to optimise text readability, inclusiveness, facilities accessibility and technical failures of interactive stations.

Scholarship Holder | [UK-Japan Student Conference](#) | Hiroshima, Japan

Mai-Sept 2019

- Lead a small international group of 5 people by subdividing research tasks ranging from interviews with nuclear victims, research on nuclear history, peace studies and geopolitical strategy for peacekeeping. Built motivation and trust to allow intervention from all parts, bridging successfully cultural differences.
- Successfully participated to conferences at Hiroshima University and UK-Japan Student Conference.

Gallery Intern | [EXgirlfriend](#) | Berlin, Germany | Oct 2017-March 2018

Developed a business oriented mind working for a small non-profit, swiftly switching between different responsibilities from space curation to networking and project coordination, fulfilling business requirements and adapting to new circumstances. Strengthened online visibility by optimising social media content, programme publications, and press releases based on Google Analytics metrics and after conducting comparative analyses of content from concurrent cultural entities. Reached 1000 followers after 3 months, publishing 10 publications a month and weekly newsletters.
